19th Anniversary Ritossa Family Office Investment Summit

27-29 June, 2022. Fairmont Monte Carlo Hotel

“World’s No. 1 Family Office Investment Conference, where World Leaders & Elite Family Office Investors Unite Together to Invest and Create A Brighter Future”

Hosted by **Sir Anthony Ritossa**, Chairman of **Ritossa Family Office**, headquartered in Dubai, with deep roots into Europe & the Middle East. Sir Anthony is a family office influencer, thematic investor with interests in private equity, real estate, blockchain companies, educator, philanthropist, and a 2021 nominee for the Nobel Peace Prize. This is the 19th event in a Global Series covering Dubai, Monaco, Riyadh and Miami - and the seventh consecutive year in Monaco. The most recent Summit in Riyadh made global headlines as the most significant & influential gathering of world leaders and family office investors of all time.

Over **400 Elite Family Offices, Prominent Conglomerate Business Owners, Sheikhs, Royal Families, Private Investment Companies, International Business Moguls, Sovereign Wealth Funds, & industry professionals** are scheduled to attend representing over **\$4.5 trillion** in investor wealth and making it **the world’s most influential gathering of elite family office decision makers**, with an investor delegate ratio of 3:1.

“Family Offices Working Together to Invest for a Brighter Future” is the theme for our Monaco Summit & will act as a bridge between European families, and their Middle East, U.S., Asian, & Latin American counterparts to meet, network and exchange information and ideas to start the journey of discovery and venturing together between like minded peers in a safe-harbour environment.

The summit is a private forum **exclusively organised by family offices for family offices**, ultra elite private investors, prominent business owners, Sheikhs, Royal family members, financial families and their private offices from around the world. The summit brings together the **world’s leading experts** geared toward **identifying actionable strategies** for generating returns in a low-rate, high volatility market. Facilitated by family offices, the summit will provide two days of **private peer-to-peer conversation, networking** and **cross-border thought leadership** designed to make you think about what to look out for, how we are investing, and why?

“The most highly acclaimed gathering of Global Wealth of all time.”

“I have produced literally thousands of events and conferences around the world and never have I found such a broadness of vision and project. The official support of Sheikh Al Nahyan and the Monaco Prince, the presence of the heirs of Bahrain and Yugoslavia Royal families, the heirs of Reynolds, Rockefeller, Bismarck, Muhammad, Menelik, Selassie and most innovative global finance platform is something unheard of before. Your event ranks in first place as the most astonishing and inspired world summit. I’m very proud to collaborate.” Matteo Peri, CNBC Europe.

“The Wealthiest Family in the World...”

No it's not Elon Musk nor Jeff Bezos nor Bill Gates nor Sir Richard Branson. It's truly none of the above.

It's a **family of families**, many families. Some you have never heard of, some whom prefer anonymity versus being in the public sphere. This family of families have together met privately in various settings over the past 7 years that I know of. For as an invited special guest I had the opportunity to meet so many incredible people, hear their visions, dreams and challenges and share in their views and ideals. **It is one great family**, one you would enjoy meeting as have I, for it's an incredible journey into understanding, learning and sharing life's lessons and exploring new opportunities. It's a group of **like minded individuals whose values and purpose are of one mindset:**

The **betterment of humanity** by investing with purpose, with impact and with the intent on ensuring the continuity of their family's legacy.

This family of families is estimated combined to have wealth in excess of **USD \$4.5 Trillion**. An Uber substantial amount of capital to deploy and close knit families that seek out meaningful opportunities both for growth and asset protection.

In every family there is always one individual, sometimes two but rarely. The individual who keeps them together, on course, and diplomatically facilitates **constructive social and business dialogue** that results in not only meaningful interaction, but billions of dollars flowing from tangible new initiatives, new investments and growth.

To stitch together such a **fabric of family of families**, truly takes a unique and special individual.

One who is brilliant, yet humble. Knowledgeable, yet soft spoken.

Engaged yet reserved. A diplomat whose purpose is to ensure that each interaction is of the highest purpose. An individual who takes great **personal pride in ensuring that there is a semblance of order, discipline, trust and honesty above all else.**

Yet this individual who is sage beyond his years and whose rare insight provides many with a valuable perspective on the art of the possible by **opening up doors that show new pathways, new innovations and a creates meaningful opportunities for participation of all.**

I was honored this past week to have shared a **rare moment with Sir Anthony Ritossa for a truly candid moment at SkyPower Global offices in the UAE.**

Sir Anthony Ritossa is truly the head of the **family of families**. Through his organization that is at the heart of The Sir Anthony Ritossa's Global Family Office Summits. For over a decade he has systematically and consistently focused on bringing together the **most progressive family offices from across the globe.**

In the global sphere of Family Offices, Sir Anthony Ritossa is truly the catalyst and the **spark for innovative and impactful investments.**”

Feedback from previous Summits:

Anthony Ritossa, Summit Host: ***"We are honoured to have The Economist feature the Ritossa Global Family Office Summit in Dubai in its exclusive cover story on how 'Family Offices have Become Financial Titans'..."***

This is a screenshot of a web article from The Economist. The top navigation bar includes 'The Economist' logo, a 'Subscribe' button, and a 'Log in or sign up' link. The article title is 'Family offices become financial titans' in a large, bold font. Below the title is the subtitle 'The growing ranks of billionaires' in-house investment teams'. A large illustration shows a tree structure where the root is a single gold bag with a dollar sign, branching out into multiple smaller gold bags, each also with a dollar sign, representing the growth of family offices. Below the illustration, there are social media sharing icons for Twitter, Facebook, LinkedIn, and Email. The article text begins with 'HUSSEIN SAYED, a local anchor with CNBC, a TV network, beams from the stage as he welcomes participants to a conference on family offices (FOS) in Dubai. Among those present are billionaires and their offspring, advisers and money managers, and a smattering of investment-minded blue-bloods, including Prince Michael of Yugoslavia. "We think there may be over \$2trn represented in this room," announces Mr Sayed, "though of course there's no way of knowing."'

"I have produced literally thousands of events and conferences around the world and never have I found such a broadness of vision and project. The official support of Sheikh Al Nahyan and the Monaco Prince, the presence of the heirs of Bahrain and Yugoslavia Royal families, the heirs of Reynolds, Rockefeller, Bismarck, Muhammad, Menelik, Selassie and most innovative global finance platform is something unheard of before. Your event ranks in first place as the most astonishing and inspired world summit. I'm very proud to collaborate." Matteo Peri, CNBC Europe.

"I was a honour to welcome more than 250 visitors from around the world to Dubai for the 14th Anniversary Ritossa Global Family Office Investment Summit. This was the 8th event in the UAE and greatly exceeded the high expectations of an important group representing over \$4.5 trillion in investor wealth. Themed "Family Offices Investing For A Brighter Future", this high-powered Summit was grander and more spectacular than ever. It's an honour to be named Distinguished Grand Ambassador," Mohamed Al Ali, CEO & Advisor, Sheikh Ahmed Al Maktoum International Investments Enterprise, UAE.

"It was the best summit I have ever attended! And was a privilege being on your panel and interacting with smart young minds who are making a transformational impact in life - all the best!" Ricky Husaini, Co-Founder, Buy Back Baazar Technologies, UAE

Great family office gatherings like the Ritossa Summits begin by building trust. And one of the best ways to do that is to bring together similar-minded thought leaders from all over the world during a two-day summit.

“The Global Family Office Investment Summit was over-the-top excellent. I can't remember meeting more interesting people or hearing more superb and relevant speakers. And on top of that, it was networking paradise. The speakers on blockchain technology have influenced not only my investing strategies but those of my sons as well. The highpoint for me was the performance of Carmen sponsored by Roy Niederhoffer, followed by his explanation of what Carmen was really about. It was a cultural and intellectual feast. I can't believe how happy I am to have been a part of the Summit. Thank you for your part in my being there. Very, very best, Mitzi” Mitzi Perdue, Chair, Perdue Farms, USA
